Distortion Product Otoacoustic Emission (DPOAE)

Name: Baby of Asna Sali
Age/Gender: 3 month/ Male

Date: 23/03/2022
MRD No: 2351691

FINDINGS:

Right ear: Emissions are present at majority of test frequencies.

Left ear: Emissions are present at majority of test frequencies.

IMPRESSION:

Bilateral DPOAEs are present at majority of test frequencies indicative of normal cochlear Outer Hair Cells (OHC) functioning in both ears.

RECOMMENDATION:

- BERA and Tympanometry to be done
- Speech and language evaluation to be done (at the age of 1 year)
- Follow up
