

6/2/25.

Prithyash. 5 yrs / 11 ch - Twin 1

- K/c/o ASD - accompanied by auntie.
- on T. Rima using BD - hyperactivity better.  
→ not given last week.  
(as it got over).

### Gains

- sitting tolerance better.
- ~~No functional communication.~~
- hand leads for all his needs.
- Needs takes by himself.

→ Planning to get admitted  
@ Kottayam Dental college  
for B.

### Concerns

- auditory seeking  
- upelly taps hand over table.
- Visual/hand showing.
- Tactile - does not hold anything in hand.  
(unless he needs it).
- ADL - dependent.
- Does not indicate felt needs.
- No functional communication.
- clanks excessively.
- Tactile - uses excessively.
- NOT co-operative for ST.
